

UNCOVERING POSSIBILITIES

TAYS offers government agencies future-ready IT solutions through a tailored approach that integrates people, business, and technology skills. Backed by over 20 years of experience across our team, as your partner in progress our technology solutions empower agencies to meet the demands of the digital era.

Contract Holder
Contract #:
47QTC A20D00AA

Under the ITSSCII and SITS Contracts, TAYS has deepened its partnership with the **Social Security Administration (SSA)**, spanning multiple offices to deliver solutions in analytics, customer experience enhancements, and IT modernization. We have supported SSA with improved decision-making through advanced analytics from the Enterprise Data Warehouse (EDW), optimized their processes with the integration of AI/ML automation, and modernized legacy systems and User Interfaces (UI) for enhanced efficiency and accessibility.

Our expertise in software engineering and systems development has advanced SSA's disability-related initiatives through full Systems Development Lifecycle (SDLC) support, improving the delivery of accurate and efficient services. This effort includes developing and supporting critical applications that are central to SSA's policy implementation and data management strategies. With a focused approach on technological innovation and process improvement, TAYS continues to support SSA's objectives of improving cybersecurity, developing modern applications, and driving digital transformation.
